

**STANDARD OPERATING PROCEDURES
DEPLOYMENT AND OPERATION OF
DEWATERING PUMPS FOR MANAGEMENT
OF URBAN FLOODING
2019**

STANDARD OPERATING PROCEDURE FOR DEPLOYMENT AND OPERATION OF DEWATERING PUMPS DURING MONSON AND CYCLONIC SITUATION

1.0 Background

In view of the geographical situation of Cuttack city, storm water during monsoon period and cyclonic/heavy rain situation is required to be released temporarily to river Mahanadi and Kathjodi as well as Taladanda canal to prevent water logging inside the city, pending renovation of the major drainage system with help of JICA which provides for release of water to river after treatment at STPs. The storm water is released through sluice gates as well as dewatering pumps.

2.0 Operation of Sluice Gates during Rainy Season

- I. Sluice gates at are to be operated during heavy rain.
 - Khannagar,
 - Matrubhawan,
 - Matagajpur,
 - Gulguli and
 - Bidyadharpur of M.D II (Zero point)
- II. Operation of these sluice gates on the Drains in the City are not a function of the split flow, but rather based on the total flow in the Mahanadi River at the Mundali Barrage. Sluice gates on Main Drains-I & II and Khannagar Link Channel will be closed depending on flow of flood water as indicated below:

| | | |
|-----------------|---|---|
| 300,000 Cft/sec | : | Khannagar sluice gate closed |
| 500,000 Cft/sec | : | Matgajpur gate closed |
| 600,000 Cft/sec | : | Gulguli sluice gate closed |
| 800,000 Cft/sec | : | Gates from MSW-I/II to Taladanda Canal closed |

III. One Asst/Junior Engineer will remain in charge of each gate from 1st June to 31st October at Sluice Gates as indicated below.

| # | Sluice gate | Ward | Officer In Charge |
|---|-------------|------|-------------------|
| 1 | Khannagar | 45 | Subas Sahu,AE |
| 2 | Matgajpur | 51 | Gitarani Sahu,JE |
| 3 | Gulguli | 55 | Aditya Mishra,JE |
| 4 | Jobra | 39 | Bipin Pradhan,JE |

They will contact Control Rooms of Water Resources Department (Barrage & Mahandi South Division), Collector and CMC and record the flow in river time to time, opening and closing of gates and all related information in the register for reference. J.Es/A.Es will contact CMC Emergency Operation Centre (EoC) for requisition of mulias for operation of sluice Gates Jobra , Gulguli etc..

OISIP, JICA will operate the sluice gates of KhanNagar, Matrubhawan, Matagajpur , Bisinibar. & Bidyadharpur Zero Point as they have renovatted the said gates by converting Manual means of operation to Electrified means of operation . One

J.E/A.E of OISIP, JICA will present in CMC Control room 24 X 7 from 15th June 2019 to 15th October 2019 in order to co-ordinate with JICA & CMC Officers for operation of sluice gates in time.

City Engineer, CMC & Executive Engineer II, CMC will pursue Store & Mechanical Division, Bhubaneswar and OISIP, JICA & take all initiation for completion the sluice gate repair work by end of May.

Sri Susanta kumar Bhuyan, AE (Electrical) and Sri Pravas Biswal J.E (Electrical) will make necessary lighting arrangements at all Sluice Gates including focusing to Gauge Reading Point. CESU authority will be requested for supply of power to these places.

Sri Manish Sarker, City Engineer I/C, CMC will be in overall charge for operation of all sluice gates. City Engineer will issue all relative official order for operation of sluice gates. He will coordinate with EE, Mahandi South for lower discharge of flood water in Taladanda canal in order to operate sluice gate at Matrubhawan when gates are Khannagar and Matagjpur cannot be operated. During his absence, Sri Bhagyadhar Sahu, Executive Engineer-II will remain in charge.

All engineering personnel will assist City Engineer & carry out instruction as and when required.

3.0 Deployment of Pumpsets

It is required to deploy pump sets during rainy season and heavy rain/cyclonic situation in broadly in the following areas

- i. From Main Drain-I to Taladanda Canal
- ii. From low-lying areas to Main Drain-I
- iii. From low-lying areas to Main Drain-II
- iv. From low-lying areas to Petanala
- v. From low-lying areas to major surface drains
- vi. From low-lying areas to river Kathjodi
- vii. From low-lying areas to river Mahanadi

4.0 Pumping Stations

Over the years, pumps are being deployed in low-lying areas as well as strategic locations of various wards of the Corporation. As per the orders of the Hon'ble High Court in OJC No-6721/99, pumping stations have been constructed out of funds placed by Special Relief Commissioner in various locations suggested by the High Power Committee. Pumping stations broadly come under various categories as given below.

- i.** Fixed pumping stations (***Annexure-I***)
- ii. Stations for deployment of high discharge pumps(***Annexure-II***)
- iii.** Locations for dewatering from low-lying areas (***Annexure-III***)
- iv. Other locations as per requirement

There are 234 low lying locations indentified inside Cuttack City (Approximate)

5.0 Emergency Operation Centre (EoC)/ Control Room

- I. Integrated Emergency Operation Centre (EoC) will function in Bikash Bhawan from **15th June to 30th November 24 X 7**. It will collect and transmit information concerning a natural calamity and relief and coordinate with the concerned agencies engaged in disaster management.
- II. Deputy Commissioner/Secy, CMC will remain in overall all charge of the EoC. Personnel of Health and Mechanical Section will also function from EoC.
- III. The EoC will function round the clock in three shifts. Each shift will be managed by two Junior Assistants and two class-IV employees under the supervision of an Officer of the Corporation apart from field staff of Health and Engineering sections. Two Data Entry Operators will be attached to the EoC.
- IV. The EoC will have the following
 - Toll free number (**1800 3456728**)
 - Land phone (**2310472/2332975**) and fax
 - Computer with UPS
 - Printer and Scanner
 - Internet connectivity
- V. EoC will have the following registers/documents
 - Attendance registers
 - Register for incoming messages/Complaints

- Register showing outgoing messages
- List of important telephone numbers including those of
 - All administrative officers
 - All Branch Heads
 - All Engineers
 - Community organizers/SIs/Tax Collectors etc
 - Pump drivers
 - Police stations
 - Control room number of other departments
- Details of important e-mail ids
- Duty chart of officers and staffs

6.0 **Weather warning dissemination**

- I. Weather Warning is given by the IMD and the same is communicated by Government in Revenue Department and Special Relief Commissioner. The same is communicated by Collector to other officers including CMC.

- II. For quick and timely tracking of weather forecast, IT Cell of CMC (under the supervision of Additional Commissioner) will get information from the following sources
 - From www.imd.gov.in for heat wave/ heavy rainfall/cyclonic storm etc
 - From state and district level Irrigation Control room for discharge of flood water at

Mundali/Naraj for floods in Mahanadi river system.

- III. IT Cell will communicate the weather warning through telephone/e-mail/sms/ WhatsApp / letter to
 - All Administrative officers/All Branch Heads
 - All Engineers
 - Ward officers/Community organizers/SIs/Tax Collectors etc
 - others
- IV. During forecast of heavy rain/flood, technical personnel like Executive Engineers, Deputy Executive Engineers, Asst. Engineers and Junior Engineers will operate from the EoC to coordinate deployment of vehicles and labours for transportation of pump sets, relief materials for movement of parties to locations and clearing of chocks in the drains.
- V. Upon receipt of weather forecast Executive Engineers, DEE (I/C Mech. Section) & A.E (Mech.) will activate other Junior Engineers/Asst. Engineers/Pump Driver for running of pump sets. No officers/engineers/staff will leave Head Quarters without prior permission from the appropriate authority.
- VI. Complaint register at EoC will be reviewed daily by the Officer concerned for immediate redressal of complaints.
- VII. Administrative Officers will check the function &

operating of pump sets and interact with local people regarding trouble shooting.

- VIII. Statistical Officer CMC /Asst. Law Officer will issue advertise telephone number of EoC and Ward officers/Engineers.
- IX. 15 Additional labours through service provider @ 5 labourers in each shift will remain present in EoC for operation of Sluice Gates on emergency call. They will also assist Road Gang of CMC for loading, Unloading & Installing of Pumpsets at various locations when there is no gate operation. The addl. Labour force will work under Sri S.Mohanty, A.E (Mech.)/Sri Aditya.Mishra J.E
- X. Additional persons will be kept by Health Section under the supervision of SI Sri Bhagban Lenka/Sri Trilok Sahoo with a vehicle to clear drainage chokes as per complaints to be received in the EoC.

7.0 Deployment of Pumps

Deployment of pumps will mostly depend upon position of discharge of flood water in Mahandi river system as per the scenario given below.

- i. Pumps to be deployed irrespective of level of discharge of flood water in Mahanadi river system
- ii. Pumps to be activated when sluice gates at Khannagar, Matrubhawan and Matagajpur are closed.

Requirement of pumps will be assessed every year taking into consider the following

- Pumps available with CMC

- Pumps procured out of funds sanctioned by SRC
- High discharge pumps procured out of funds sanctioned by SRC
- Pumps to be arranged from
 - ODRAF, Cuttack
 - Fire Services
 - Civil Society organizations and
 - Other sources

Details of pumps available as on 01.5.2019 are given in ***Annexure-IV.***

8.0 Requirement of Pump Operators

Requirement of pump operators will be finalized by City Engineer, CMC taking into consideration existing pump drivers of CMC. Balance requirement will be filled up by deployment through registered Service Providers empanelled with CMC. The requirement will be finalized by end of May.

9.0 Capacity Building of Pump Operators

All pump operators (CMC staff and those deployed through service provider) will be imparted training (including hands on training) for proper operation of pumps. Such training will be imparted by experts from Pump Supplies and Fire Services under the supervision of AE/DEE (Mechanical).

10.0 Maintenance of Pumps

I. Annual and periodic maintenance of all pumps will be taken by AE/DEE (Mechanical). Annual maintenance will be completed by end of 15th June since deployment of pumps may be required in the month of June due to summer rain. AMC will be made for O & M of pumps as

per their specific requirement including supply of spare parts.

- II.** AE/DEE (Mechanical) will ensure presence of technical personnel for troubleshooting during deployment period. The high discharge pumps procured out of SRC Funds have web-enabled and GIS reference inbuilt system. O & M of these pumps will be as per inbuilt technology. Minimum critical spare parts will be maintained for the period from June to September.
- III. A trial check/testing of all the pump sets will be made by 4th week of May.
- IV. DEE (Mech) & A.E (Mech) will repair pump sets when there is sudden breakdown/ non-functioning at site by engaging moveable mechanic teams. The foot valves and pipelines of permanent fixed Stand Points Pumping units will be checked and repaired by the Mechanical Division of Engineering Section. The Executive Engineer-I will monitor the operation.
- V. City Engineer, CMC will procure Suction & Delivery pipes for dewatering Pumpsets well in advance i.e. before monsoon as per requirement.
- VI. City Engineer, CMC will procure Spare parts & lubricants High Discharge Wacker Neuson pumps from Authorized Dealer of Wacker Neuson Equipment Pvt. Ltd. as per requirement.

11.0 Pump Movement

City Engineer, CMC will remain in overall charge of deployment of pump sets. During his absence, Executive Engineer-II will remain in charge. All engineering personnel will assist City Engineer & carry out instruction as and when required. City Engineer will issue all orders for deployment of pumpsets. All pumps will be kept in the store room under the control of AE (Mechanical). He would install/supply pumps **as per the requisition of ward JE/AE and approval of the City Engineer.**

All moveable Pump sets will be pre-positioned by 2nd week of June in different locations where there is possibility of water logging in case of heavy rain. Each Junior Engineer/Asst. Engineer, assisted by his Works Sarkars is responsible for operation of the pumps in his wards.

Ward Junior Engineer/Asst. Engineer (**Annexure-V**) will provide requisition for running of pump sets mentioning duration of pump run to CE who will issue necessary instructions to A.E (Mech.).

AE/J.E (Electrical) will make light arrangements in pump stations. Security Personal through Service provider should be engaged in the pumping station shift wise where High Discharge 24 HP Pump sets will be installed. DEE (Mech.) & A.E (Mech) will make duty arrangements for Security Personnel.

Minimum three Pump sets with required suction & delivery pipes will be kept in carriage vehicle and the same can be

delivered to low laying area on emergency call.

12.0 Allied works

- In view of orders of the Hon'ble High court passed in different PIL, WP(c) and OJC cases arrangements are hereby made among the Senior Officers to monitor the overall activities under the supervision & control of CMC i.e. desilting of drain works, dewatering, grievance redressal , sweeping, drinking water facilities etc. wards assigned vide order No. 2914 dt 30-03-2019 as per ***Annexure VIII***
- Excavators/Back Hoe loaders , Mini Excavators, Skid Steer Loader will be exclusively used for periodic desilting of Main drain-I and II as well as other BSWCs & Major Surface Drains wherever mechanical desilting is possible. Beside this one Heavy Duty Long Boom Chain Mounted excavator has been hired for a period of one month for desilting of Main Drain I from Pravat Cinema Chhaka to Bisinibar & Link Channel.
- OISIP, JICA will do the do the desilting of following drains before monsoon as decided in Cuttack City Disaster Management Plan 2019 meeting held on 13-02-2019 & review meeting of RDC (Central) held on 21-05-2019.
 - a. Desilting of Main Drain I from Chahata Nagar to Matagajpur except Pravat Cinema Hall Chhaka to Bisinibar Culvert
 - b. Desilting of Main Drain II (DAV School to CRR)

- c. Desilting of Drain 3L & 4 L of M.D II (Nuabazar Drains)
- d. Desilting of Box Drain from Samaj Office to Pravat Cinema & Box Drains in between Rousapatana to Chatarabazar
- e. Removal of all temporary blockages of M.D I & II
- Two movable tower lights would be stationed in places where pumping will be taken up through high discharge pumps during night time.
- 5000 Sand bags will be kept ready at Satichoura by the City Engineer to meet the emergency situation.
- All officer/engineers/Cos/EoC Staff/ Mechanical Section Staff/Health Section staff should receive/reply the telephone calls/complaints without fail. They should keep their MOBILE PHONE SWITCH ON round the clock during rainy season. They should report intermittently all the findings to their concerned authority of their respective areas of operation.

13.0 Supply of PoL

- I.** PoL would be provided on daily basis as per the written requisition of ward JE/AE by the following officers with approval of EEs/DEEs/DCs (Format enclosed – ***(Annexure VII)***)
 - a)** AE (Mechanical): Fixed pumping stations and High discharge pumps/During absence of AE (Mechanical) Sri Aditya Mishra, J.E will in charge .
 - b)** AE (Mechanical)/Swagatika Mohanty J.E: Portable

pumps deployed in various wards.

- c)** If PoL issuing officers are indisposed to issue, following alternate arrangement will be followed.

| Officers to issue PoL when one of them is otherwise indisposed (vice versa). | | |
|--|---------------------|------------------------|
| 1 | S Mohanty AE (Mech) | Sri Aditya Mishra, J.E |
| 2 | S Mohanty AE (Mech) | Swagatika Mohanty J.E |

- d) PoL supplied will not exceed a day's requirement as indicated below.

| Make | TYPE | Flow Rate litres/minute | Fuel Consumption in litre/hour |
|--|----------------------|----------------------------|--------------------------------------|
| Wacker Neuson Trailer Mounted Self-priming Centrifugal Trash Pump Model (PT6LT) | High Discharge 24 HP | 5000 | 5.00 |
| Kirloskar Make Diesel Engine | 65 HP Fixed | 14000 | 12.63 |
| | 50 HP Fixed | 10800 | 9.71 |
| | 32 HP Fixed | 6912 | 6.22 |
| | 20 HP Moveable | 4320 | 3.89 |
| | 16 HP Moveable | 3456 | 3.11 |
| | 15HP Moveable | 3240 | 2.91 |
| | 14HP Moveable | 3024 | 2.72 |
| | 10HP Moveable | 2160 | 1.94 |
| | 5 HP Moveable | 1080 | 0.97 |

- II.** Log Books shall be supplied against each pump and PoL supplied and used shall be entered in the log book and certified by the ward JE/AE.
- III.** EEs/DEEs/Administrative Officers will randomly check the log book.
- IV.** Operation of pumps deployed in various wards shall be

crosschecked with daily rainfall data and incase it is seen that PoL has been shown used on dry days, shall be recovered from the JEs/AEs/AE(Mech) concerned.

- V. DEE (Mech.) & A.E (Mech) will arrange sufficient number of Jarkins to take fuel from Petrol pump to pumping station. Kathajodi Filling Station (KFS) will be kept open day and night as per requirement and adequate reserve stock will be maintained for emergency.
- VI. KFS will maintain separate accounts for issue of PoL to pumps and furnish weekly account/statement. They shall not issue PoL unless the coupons supplied by them are not signed by the authorized officers.
- VII. AE/J.E (Electricals) will assist the A.E (Mech.) during above period for smooth & early issuance of fuel to Pump Drivers & dispatch of pump sets to required vulnerable points. They will maintain the register & they also check the smooth, accurate & timely delivery of fuel to Pump Drivers at Kathajodi Filling station.
- VIII. The required vehicles/Tractors with loaders will be arranged by City Health Officer for sending of pump sets.
- IX. All required repairs of vehicles like Tractors, Trucks, backhoe loader &, Bobcats etc. and pump sets will be completed by 31st May by the Mechanical Section.

14.0 Monitoring and Supervision

- All JE would report no. of pumps operated with hours to CE.
- **CE would prepare a daily report on dewatering**

pumps deployed to Govt with a copy to RDC cum Administrator, Commissioner & Collector. A copy will be kept in the Control Room.

- A copy of the report will be hosted in the CMC website for information of general public.
- Administrative Officers/EEs/DEEs will check and verify actual deployment of pumps in the field.

Annexure-I**List of Fixed Pumping Stations**

| # | Location No. | Location | Ward No. | HP |
|----|--------------|----------------------------|----------|----|
| 1 | 1 | Wireless Stand Post -I | 8 | 65 |
| 2 | | -do- -II | 8 | 65 |
