Checklist for Mosquito Breeding sites in Industrial area

Area:-

Date :-

Supervised by :-

Items	Description	Checked	Findings*		Actions Taken	
			Stagnant water	Mosquito breeding	Clear stagnant water	Apply chemical
1	Administrative Office & premises					
a	i) Flower pots/ plates/ watering cans/ plastic containers/ domestic containers					
b	Cooler					
c	AC drip trays					
d	Fridge Tray					
e	Water fountain					
2	Roof Top					
a	Water tanks					
	i) Floor under water tanks					
	ii) Check for gaps and openings at covers and ventilation holes					
b	Roof gutters					
c	PVC piping supports					
d	Discarded items if any in the roof					
3	Corridor & Staircase					
a	Corridors and staircase landings,					
b	Flower pots/ plates/ watering cans/ plastic containers/ domestic containers					
c	Discarded items if any					
4	parking area					
a	Open and closed carpark drains					
b	Abandoned vehicles/trucks used for transportation					
c	Covers for motorcycles					
d	Tyres, including discarded tyres					
e	Discarded items & receptacles					
5	Inside Industry workshop					

Checklist for Mosquito Breeding sites in Industrial area

a	Building materials - zinc sheets, form work, steel bars, metal beams, pipings,					
b	Equipment and machineries,					
c	Water storage/ filtration/ sedimentation tanks, drums, containers					
d	Bulk waste containers, refuse bins					
e	pits					
f	Drains/ temporary channels constructed for drainage					
g	wash place					
h	Discarded items					
i	Open and closed drains					
6	Storage Yard					
a	materials - zinc sheets, form work, steel bars, metal beams, pipings, uninstalled toilets, etc					
b	unused Equipment and machineries					
c	Concrete test cube tanks					
d	Bulk waste containers, skips & refuse bins					
e	Tool boxes					
f	Iron Scrap materials					
g	unused Water Bottles/ Liquor Bottles					
i	Paint tins/ cans					
j	covered Polythene Sheet					
k	Discarded items					
l	Large water storing Container					
m	Scrap materials					
7	Canteen					
a	Cooking pots & pans/ domestic containers					
b	Refrigerator trays					
c	Flooring under sinks (may be concealed by cabinets)					
d	Discarded items if any					
8	Living Quarters nearer to industrial area/Industries					
a	Plastic containers/ cooking pots & pans/ domestic containers/Vessels/Coolers					
b	Coolers/AC					
c	Discarded items if any					

Checklist for Mosquito Breeding sites in Industrial area

9	Cooking & Washing Area					
a	Cooking pots & pans/ domestic containers					
b	Water Storage Containers					
10	Nearer to Industrial area					
a	Tea Stall(Plastic Cups/Bottles,Water polythene Pouch,Plastic Glass)					
b	Coconut Vendor(Coconut Shell)					
c	Kabadiwala(Iron Scrap materials)					
11	Nearer to Industrial area					
1	Bamboo stumps					
2	Battery Box					
3	Broken household items					
4	Cement Tank					
5	Coconut Shell					
6	Discarded helmet					
7	Discarded laddel					
8	Discarded Shoes					
9	Discarded spoon					
10	Discarded steel glass					
11	Discarded thromocol					
12	discarded tyres					
13	Discarded washing basin					
14	Disposable glass/ cups					
15	Earthen pot					
16	Flower Base					
17	Metal drum					
18	Miscellaneous container					
19	Plastic bag					
20	Plastic Bucket					
21	Plastic Container					
22	Plastic drum,					
23	Plastic Mug					
24	Plastic/Glass bottle					
25	Soap box					
26	Tin Can					
27	Tin container					
28	Toys					
29	Unused syntax tank					
30	Unused utensils
